PROFESSIONAL SUMMARY

MERN Stack Developer with 1+ year of combined internship experience designing and developing scalable web applications using React.js, Node.js, Express.js, MongoDB, and Next.js. Skilled in REST API development, performance optimization, and responsive UI engineering. Achieved up to 40% improvement in application performance and reduced bundle size by 30% through optimized code structure and efficient state management.

EXPERIENCE

Glucian India Private Limited | MERN Stack Developer Intern | 3 months

- Developed responsive web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), including Pet Shop and Coffee Shop websites, ensuring mobile-first design and cross-browser compatibility.
- Implemented email integration for contact and inquiry forms and built multiple responsive landing pages, improving user engagement and lead capture.

Indoplus Private Limited | Full Stack Developer Intern | 6 months

- Implemented role-based authentication (Admin, Brahmin, Yajman) with secure login/signup functionality.
- Developed responsive UI pages and CRUD features for Brahmin and Yajman modules for the Puja service booking platform.

Smaket Solution Private Limited | Frontend Developer Intern | 3 months

- Fixed UI and print-layout issues across billing, reports, and inventory modules, including column naming, alignment, and sorting logic, improving usability and consistency across PDF and Excel imports.
- Resolved functional bugs in filters, date pickers, and sorting features, ensuring accurate data display and responsive layouts across different screen sizes.

PROJECTS

PetShop

- Developed a fully responsive Pet Shop Management Website using React.js, Vite, and Tailwind CSS, ensuring seamless performance across mobile, tablet, and desktop devices.
- Implemented email integration and customer support features to enable smooth communication between customers and the pet shop management system.
- Designed an interactive and user-friendly UI with optimized layouts, fast loading performance, and modern responsive design principles to enhance user experience and accessibility.

UtkalEducation

- Developed a fully responsive educational website for Utkal Education using Next.js and Tailwind CSS, ensuring smooth accessibility across mobile, tablet, and desktop devices.
- Built modern and user-friendly UI components with responsive layouts, optimized performance, and clean navigation to improve user engagement and learning experience.
- Collaborated on frontend development to create scalable and maintainable web pages while enhancing website responsiveness, usability, and overall performance.

Omm Babaji Website

- Developed a full-stack web application using Next.js for the frontend and Node.js, Express.js, and SQL for backend and database management.
- Designed and implemented secure Signup/Login authentication with RESTful APIs and structured backend validation.
- Built and tested CRUD APIs for Brahmin and User management, enabling admin control and dynamic data handling.

EDUCATION

Master of Computer Application | Gandhi Institute For Technology, Bhubaneswar | CGPA: 8.42 | 2023–2025

Bachelor of Science (Hons: Computer Science) | Udyanath Autonomous College of Science & Technology, Bhubaneswar | CGPA: 7.77 | 2020–2023

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js

Build Tools: Vite, NPM

API Tools: REST, Axios, Postman

Version Control: Git, GitHub

Databases: DBMS, SQL, MongoDB

CERTIFICATION

Full Stack Developer – Utkal Group, experienced in building modern web applications using Next.js, Tailwind CSS, Express.js, and MongoDB.
